

## **Liebherr-Aerospace Toulouse SAS Inaugurates its New Logistics Center**

**Toulouse, 19th September 2014 – Liebherr-Aerospace Toulouse SAS, center of excellence for aerospace air management systems within the Liebherr Group of Companies, has added a new logistics center to the infrastructure of its site in Toulouse (France). Many guests, including representatives from institutions and industry, were present at the inauguration ceremony on September 19, 2014.**

The new logistics center, which represents an investment of €11.5 million, houses all functions of the supply chain on 6,300 m<sup>2</sup> of floor space – incoming goods, incoming goods inspection, stores, outgoing goods inspection and shipping. Also, the building provides office space for purchasing, supplier quality control and other logistics support functions as well as for sales administration.

Outfitted with the latest technologies, the logistics center is able to process 130,000 components and several hundred thousand spare parts annually, thus meeting the highest requirements of quality, traceability and on-time delivery. Moreover, the building is made of materials that meet the highest standards of thermal performance, and water solar energy is used to heat water.

With its new facility, Liebherr-Aerospace Toulouse SAS is not only responding to growth in its markets, but also to increasing customer demands regarding industrial performance.

### **Liebherr-Aerospace is a leading supplier of systems for the aviation industry**

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment

produced by Liebherr for the civil and military sectors includes flight control and actuation systems, landing gear and air management systems. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 4,900 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline (Michigan/USA), Seattle (Washington/USA), Wichita (Kansas/USA), Montréal (Canada), Sao José dos Campos (Brazil), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Singapore and Shanghai (People's Republic of China).
