

## **Liebherr-Aerospace at the NBAA 2015 Business Aviation Convention & Exhibition**

**November 2015 – At this year’s NBAA Convention & Exhibition, which takes place from November 17-19, in Las Vegas, Nevada (USA), Liebherr-Aerospace will be displaying state-of-the-art systems and components from its product lines flight control and actuation, air management and landing gear for business jets and helicopters of all sizes.**

On the company’s stand No. N3135, visitors will be able to have a look at a cooling pack, components of a flight control system and a nose landing gear system. In addition, Liebherr-Aerospace will be showcasing a humidification system that can be installed in various types of aircraft.

“We are looking forward to welcoming our customers, operators and partners from around the world at our stand to meet and discuss trends in the aviation business including aftermarket activities”, says Nicolas Bonleux, Managing Director & Chief Sales Officer, Liebherr-Aerospace & Transportation SAS.

### **Electronic Components from Liebherr-Elektronik on Display**

Liebherr-Elektronik GmbH, Lindau (Germany), will be represented at this year’s NBAA Business Aviation Convention & Exhibition for the first time. The company will be displaying an integrated air system controller, thus complementing the exhibits at Liebherr-Aerospace’s stand. Liebherr-Elektronik offers a variety of DAL A functions covering a broad range of different hardware platforms in the fields of power electronics as well as control and monitoring electronics. The components supplied by the company have proven themselves in service in numerous aircraft. “We are envisaging new customers for our electronic products and services in the aerospace market, and we are looking forward to presenting our know-how and experience to the aerospace community at NBAA Convention & Exhibition”, says Dr. Ralf Cremer, Managing Director, Sales and Engineering Aerospace and Railway, Liebherr-Elektronik GmbH.

## **Liebherr-Aerospace is a leading supplier of systems for the aviation industry**

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, landing gear, air management systems as well as gears and gearboxes. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 4,900 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline (Michigan/USA), Seattle (Washington/USA), Montréal (Canada), Sao José dos Campos (Brazil), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Singapore and Shanghai (People's Republic of China).
