LIEBHERR

Liebherr to Supply ŽOS Vrútky with Air Conditioning Systems

Korneuburg (Austria), April 2015 – Liebherr-Transportation Systems has recently been selected by the Slovakian railway vehicle manufacturer ŽOS Trading s.r.o, Vrútky, to deliver air conditioning systems.

These under-floor split air conditioning systems will be installed in a total of 17 passenger cars of the types Ampeer and Bmpeer the Slovakian railway company Železničná spoločnosť Slovensko (ZSSK) ordered from ŽOS Vrútky.

Each unit consists of an air processing and cooling unit, as well as the necessary refrigerant ducting and system controller, which is integrated into an electrical cabinet. The supply of the systems commenced in March and will continue until September this year.

This order from ŽOS Vrútky is a follow-on contract. A total of 92 ŽOS Vrútky passenger cars will eventually be equipped with reliable air conditioning systems developed, manufactured and serviced by Liebherr-Transportation Systems.

Liebherr-Transportation Systems – Renowned Manufacturer of Railway Technology

Liebherr-Aerospace & Transportation SAS in Toulouse (France) is one of eleven divisional control companies in the Liebherr Group and coordinates all activities in the fields of transportation and aviation equipment. It employs around 4,900 people worldwide.

Liebherr's transportation systems division deals with air conditioning, hydraulic actuation systems and electronic components for rail vehicles of all kinds, and is backed by many years of experience in the development and manufacture of these technologies. In addition to its own sales and service centers, the division has access to the Group's development and service facilities around the world. This global set-up

means that Liebherr-Transportation Systems is there for its customers wherever they may be.
