

### **Roll-Out: Liebherr-Aerospace on Board the Falcon 5X**

**June 2015 – Liebherr-Aerospace supplies critical systems for Dassault Aviation’s new-generation business jet Falcon 5X, which was unveiled to the public at the aircraft manufacturer’s facility in Bordeaux-Merignac (France) on June 2, 2015.**

The company’s share in this two-engine aircraft comprises the integrated air management system and the cabin air humidification system. Liebherr-Aerospace Toulouse SAS, Liebherr’s center of excellence for air management systems based in Toulouse (France), has leveraged its many years of experience to develop and manufacture light-weight and reliable components for both devices; for over 50 years, the system supplier has been manufacturing critical flight systems for all of Dassault Aviation’s aircraft, including other members of the Falcon family such as the Falcon 7X, Falcon 8X, Falcon 900, Falcon 2000 and Falcon 50 models.

Liebherr-Aerospace will offer support solutions for its components and systems on board the Falcon 5X during the business jet’s entire life cycle. Thanks to its international network of maintenance, repair and overhaul stations and spares distribution facilities, the company’s customer service organization ensures customer proximity and high-level performance for aircraft operators across the world.

#### **Liebherr-Aerospace is a leading supplier of systems for the aviation industry**

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, landing gear and air management systems, as well as gearboxes. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft,

business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 4,900 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline (Michigan/USA), Seattle (Washington/USA), Montreal (Canada), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Singapore and Shanghai (People's Republic of China).
