

Liebherr-Aerospace at Paris Air Show 2015

June 2015 – Liebherr-Aerospace will once again be showcasing its products and customer services at this year’s Paris Air Show. From June 15 to 21 June, flight control and actuation systems, landing gears air management systems, gearboxes and electronic components will be on display at the company’s new and redesigned stand N° 276 in hall 2A. Moreover, Liebherr-Aerospace will be taking part in the career events “Forum Emploi-Formation” and the “L’Avion des Métiers”, thus presenting visitors employment and training opportunities.

A leading supplier to the aviation industry, Liebherr-Aerospace will be welcoming partners, visitors and official delegations at Paris Air Show 2015. Exhibit highlights at its 260 m² stand include the nose landing gear of the Airbus A350 XWB, air management equipment for the Airbus A330neo as well as the air conditioning pack of the Embraer E2 regional aircraft. Visitors will also have the opportunity to gain insights into innovations in research and development, such as the so-called remote electronic unit, which is part of the innovative electric wing concept. Liebherr-Aerospace developed this electronic control unit in cooperation with Liebherr-Elektronik GmbH, Lindau (Germany) also exhibiting products of its own at the stand. Furthermore, Liebherr-Aerospace will be showing an animated film about its capabilities as a developer, manufacturer and integrator of aircraft systems. Watching the film, visitors will be able to learn about all the systems Liebherr-Aerospace supplies and how they function on board an aircraft.

“We are looking forward to participating in the Paris Air Show again and meeting representatives from companies as well as authorities from the aviation industry,” says Nicolas Bonleux, Managing Director and Chief Sales Officer at Liebherr-Aerospace & Transportation SAS. “Not only will we be showcasing our components, systems and customer services portfolio at Le Bourget, but we will also be discussing trends and business opportunities in the various aviation markets.”

Information on Career and Training Opportunities with Liebherr-Aerospace

The career fair "Forum Emploi Formation", which is held from June 19 to 21 in the "Concorde" hall of the "Musée de l'Air", will be giving visitors the opportunity to learn about Liebherr-Aerospace as an employer. At stand N° 30 they will be able to network and gather information on career and training opportunities with the company. In addition, the system supplier will again be taking part in the "L'Avion des Métiers" campaign sponsored by the French Aerospace Industries Association GIFAS. This year, Liebherr-Aerospace will be presenting the demanding professions of a welder and a milling machine operator. "L'Avion des Métiers" will be hosted in a pavilion on the open-air grounds between the exhibition halls and the "Musée de l'Air".

Electronic Components from Liebherr-Elektronik on Display

Liebherr-Elektronik GmbH, Lindau (Germany), will be represented at this year's Paris Air Show for the first time. The company will be displaying its electronic control units and power electronics, thus complementing the exhibits at Liebherr-Aerospace's stand. Liebherr-Elektronik offers a variety of DAL A functions covering a broad range of different hardware platforms in the fields of power electronics as well as control and monitoring electronics. The components supplied by the company have proven themselves in service in numerous aircraft. A total of six controllers, including the recent KC-390, Embraer E2 and A320neo developments, will be shown at the trade show. "We are envisaging new customers for our electronic products and services in the aerospace market, and we are looking forward to presenting our know-how and experience to the aerospace community at Paris Air Show", says Dr. Ralf Cremer, Managing Director, Sales and Engineering Aerospace and Railway, Liebherr-Elektronik GmbH.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, landing gear and air management systems, as well as gearboxes. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 4,900 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline (Michigan/USA), Seattle (Washington/USA), Montréal (Canada), Sao José dos Campos (Brazil), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Singapore and Shanghai (People's Republic of China).
