

Liebherr-Transportation Systems Strengthens its Service Presence in Switzerland

September 2017 – Liebherr-Transportation Systems has opened a new service location in Switzerland. In order to provide Swiss rail vehicle manufacturers and operators with even faster and better support, the service team has set up an office in Reiden, in the Canton of Lucerne, at the premises of Liebherr-Baumaschinen AG.

Reiden is a site that offers ideal conditions for providing customers in the railway sector with tailor-made services for their air conditioning and hydraulic systems even more efficiently than before. Experienced staff, material availability on site and short reaction times are deciding factors.

The range of services includes both preventive and corrective maintenance, system optimizations, warranty support and spare parts management.

“We are happy that we can now offer our customers in Switzerland even more added value when it comes to looking after their fleets”, said Wolfgang Boettcher, Head of Service at Liebherr-Transportation Systems GmbH & Co KG, when the office was opened.

Liebherr-Transportation Systems – Renowned Manufacturer of Railway Technology

Liebherr-Aerospace & Transportation SAS in Toulouse (France) is one of eleven divisional control companies in the Liebherr Group and coordinates all activities in the fields of transportation and aviation equipment. It employs around 5,400 people worldwide.

Liebherr’s transportation systems division supplies cab and saloon heating, ventilation and air conditioning (HVAC) systems, hydraulic actuation systems, dampers and hydraulic load levelling equipment for rail vehicles of all kinds. Liebherr has many years of experience in the development, manufacture, and field service of these technologies,

offering support throughout the entire product lifecycle. In addition to its own sales and service centers, the division has access to the Group's extensive and unique technologies as well as development and service facilities around the world. This global set-up means that Liebherr-Transportation Systems is there for its customers wherever they may be.
