

## **Liebherr-Aerospace at Aero India 2019**

**February 2019 – Liebherr-Aerospace, as a long-standing partner of the Indian aviation industry, participates again in Aero India, taking place from February 20 to 24, 2019 at Yelahanka Air Force Station in Bangalore. The company's stand No. AB 2.7 can be found in Hall AB.**

Liebherr-Aerospace displays its capabilities in the product fields of air management, flight control and actuation, gears, gearboxes as well as landing gear systems and electronics. The company presents its offers for lifecycle support and full range of customer services. One of the highlights will be a helicopter nose landing gear, which can be extended and retracted on the stand.

Liebherr-Aerospace offers Indian aircraft manufacturers highly integrated and engineered products in its wide range of products for up-coming aircraft projects. At Aero India, the Liebherr team will explain to potential customers what high-tech solutions are possible. In fact, Liebherr currently already supplies and maintains many components for aircraft that are built in India by the manufacturer Hindustan Aeronautics Limited (HAL). Among them are heating and ventilation system components for the Advanced Light Helicopter (ALH) program, the cabin pressure control system for the Jaguar and the flap actuation system, landing gear actuators and the nose wheel steering system for the Dornier 228. The products are maintained locally or within the Liebherr service center network.

### **Liebherr-Aerospace is a leading supplier of systems for the aviation industry**

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, landing gear, air management systems as well as gears and gearboxes and electronics. These systems are deployed in wide-bodied aircraft, single aisle and

regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 5,400 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline, Michigan (USA), Seattle, Washington (USA), Montréal (Canada), Sao José dos Campos (Brazil), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Bangalore (India), Singapore and Shanghai (People's Republic of China).
