

Liebherr-Aerospace to Showcase at Singapore Airshow 2020

February 2020– Liebherr-Aerospace will be having a strong presence at this year’s Singapore Airshow with a full display of multiple key components from February 15th through the 16th at the Changi Exhibition Centre.

Liebherr-Aerospace will welcome its customers, partners and all interested visitors to this large airshow in Asia. This year, the company decided to showcase at its booth number L65 major components. Among them, two heat exchangers of the A320 family will be presented in an educational way for the visitors: The units will be in pre-repair and post-repair condition illustrating the differences and thus giving an example of an OEM's repair process.

In addition to the heat exchangers and the general display of its Customer Service capabilities, Liebherr will also show examples of its product lines air management system, flight control and actuation as well as landing gear and electronics.

Singapore Airshow takes place every other year and it is unarguably one of the best platforms in the region for industry leaders from various sectors to gather under one roof to exchange ideas, insights, and discuss solutions for today's global aerospace challenges.

A leading supplier of systems for the aviation industry

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, gears and gearboxes, landing gear and air management systems as well as electronics. These systems are deployed in wide-bodied aircraft, single aisle and

regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 5,800 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline (Michigan/USA), Seattle (Washington/USA), Montreal (Canada), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Bangalore (India), Singapore and Shanghai (People's Republic of China).
