

Press release

Most powerful 5-axle mobile crane for Brazilian group Calsimec

- The mobile crane LTM 1250-5.1 has a maximum lifting capacity of 250 tonnes
- Calsimec will use the Liebherr crane mainly for industrial assembly work
- The Calsimec Group has been operating in the Brazilian market for over 45 years in the Triangulo Mineiro and Alto Paranaíba region

The Brazilian group of companies Calsimec has acquired a Liebherr LTM 1250-5.1 mobile crane. The 5-axle crane is technologically at the highest level and offers excellent lifting capacities. It will work predominantly in mining companies in the state of Minas Gerais and also attend the agribusiness segment in high demand.

Ehingen (Donau) (Germany), 2nd February 2022 – The mobile crane LTM 1250-5.1 was designed for maximum lifting capacity with available weight and is currently, the strongest five-axle crane in the world. With this in mind, the Calsimec Group bought its first LTM 1250-5.1. “This new crane will guarantee our Group greater competitiveness in the rental services market. We can also better implement industrial assembly work”, André Tadeu, Operational Manager of Calsimec, explains and emphasises: “Another important factor for Calsimec was the high quality standard of the Liebherr machines. We already have a mobile crane LTM 1130-5.1, which provides us with reliable services.”

Calsimec's LTM 1250-5.1 has 250 tonnes maximum lifting capacity. The telescopic boom reaches a length of 60 meters and can be extended with 14 meter lattice sections and a double swing away jib of 36 meter. It also has the proven Liebherr technologies, which guarantee flexible lifting with the boom systems and a high versatility of the applications. These include, for example, the VarioBallast® system, which enables fast variation between a large radius and high load capacities as well as a small radius for restricted job sites. The ECOmode and ECOdrive systems ensure reduced fuel consumption.

Calsimec's Operational Manager André Tadeu and the Industrial Director Carlos Antonio dos Reis enthusiastically received the LTM 1250-5.1 at the End of October. Carlos Antonio dos Reis says: “It was very important for us to receive the new crane as soon as possible, to get to know the technical refinements and to be able to carry out the training of our employees. This enables us to achieve a better performance with our customers.”

About Calsimec

Founded in 1975 in Araxá (State of Minas Gerais), Calsimec Group operates in several market sectors. This includes the manufacturing of boilers, mechanical machining services, industrial sandblasting and

painting in the mining sectors, metallurgy, steel, sugar, alcohol, agribusiness, pulp, cement, food, chemical industry, rental of load lifting equipment and mobile cranes. The company has three branches in Araxá and approximately 215 employees.

About Liebherr-Werk Ehingen GmbH

Liebherr-Werk Ehingen GmbH is a leading manufacturer of mobile and crawler cranes. Its range of mobile cranes extends from 2-axle 35 tonne cranes to heavy duty cranes with a lifting capacity of 1200 tonnes and a 9-axle chassis. Its lattice boom cranes on mobile or crawler crane chassis deliver lifting capacities of up to 3000 tonnes. With universal boom systems and extensive additional equipment, they can be seen in action on construction sites throughout the world. The Ehingen site has a workforce of 3,500. Extensive, global service guarantees the high availability of Liebherr mobile and crawler cranes. In 2020, the Liebherr plant in Ehingen recorded a turnover of 2.03 billion euros.

About the Liebherr Group

The Liebherr Group is a family-run technology company with a widely diversified product range. The company is one of the largest manufacturers of construction machines in the world, but also supplies technically advanced, user-focused products and services in many other sectors. The group currently comprises more than 140 companies based in every continent of the world, has a workforce of around 48,000 and recorded a consolidated total turnover of more than 10.3 billion euros in 2020. Since it was founded in 1949 in Kirchdorf an der Iller in southern Germany, Liebherr's aim has been to win customers by supplying high quality solutions and to contribute to technological progress.
