

Press release

Liebherr and EGYPTAIR MAINTENANCE & ENGINEERING sign major service contract

Liebherr-Aerospace and EGYPTAIR MAINTENANCE & ENGINEERING announce the signature of a three-year agreement covering the maintenance of heat transfer equipment on board the Airbus A320ceo/neo fleet of EGYPTAIR. The contract also covers the Airbus A320ceo/neo fleets of other airlines, which are presently supported by EGYPTAIR MAINTENANCE & ENGINEERING. The goal: Customers shall benefit from fast response and shorter turn-around-times as well as Liebherr's Original Equipment Manufacturer experience.

Cairo (Egypt), September 2024 – Liebherr-Aerospace and EGYPTAIR MAINTENANCE & ENGINEERING have recently signed a major heat transfer maintenance services agreement. Over the next three years, Liebherr and EGYPTAIR MAINTENANCE & ENGINEERING will jointly provide maintenance and re-coring services of heat transfer equipment that is on-board the Airbus A320ceo/neo fleet operated by EGYPTAIR and other airlines that have a standing MRO contract with EGYPTAIR MAINTENANCE & ENGINEERING.

The re-coring and major repairs will take place at the workshops of Liebherr Aerospace Saline, Inc., in Michigan (USA), already for several decades Liebherr's center of excellence for heat transfer equipment MRO services in the Americas.

By providing localized support and reducing dependency on external services, EGYPTAIR MAINTENANCE & ENGINEERING is positioned as a key player in driving operational efficiency for airlines, especially within Africa and the Middle East. With reduced turnaround times and enhanced responsiveness, this partnership ensures that EGYPTAIR is at the forefront of delivering world-class maintenance solutions, tailored to the specific needs of its global clients.

“We are delighted to be working with EGYPTAIR MAINTENANCE & ENGINEERING, one of the leading providers of MRO services in aviation,” commented Alex Vlieland, Chief Customer Officer of Liebherr-Aerospace & Transportation SAS. “This agreement sets out the framework of a win-win partnership for both parties that will allow us in particular to further develop our repair network.”

“We are very happy to work with Liebherr-Aerospace to support our fleet of A320ceo/neo and the fleets of our customers that we already take care of under already existing maintenance contracts,” added Eng. Ibrahim Fathy, Chairman & CEO of EGYPTAIR MAINTENANCE & ENGINEERING. “Liebherr provides a high level of performance and flexibility. They understand and meet our and our customers' requirements.”

Fathy added that EGYPTAIR MAINTENANCE & ENGINEERING will leverage Liebherr's OEM expertise to reinforce its leadership in MRO services by undertaking a critical role in the repair process. With its advanced facilities in Cairo, EGYPTAIR MAINTENANCE & ENGINEERING will be responsible for executing major non-welding repairs, performing minor repairs, and conducting all test procedures to ensure the highest standards of quality and reliability. This strategic collaboration not only enhances EGYPTAIR's technical capabilities but also enables it to deliver highly efficient and timely services across its expansive MRO network leading to widening our customer base and driving business growth.

About Liebherr-Aerospace & Transportation SAS

Liebherr-Aerospace & Transportation SAS, headquartered in Toulouse (France), is one of 13 product segments of the Liebherr Group and a first-tier provider of on-board solutions in the aerospace and transportation industry, contributing to a more sustainable transport through innovative products, best in class services and performance excellence.

The aerospace product portfolio offered to civil and defense customers includes environmental control and thermal management systems, flight control and actuation systems, landing gears as well as on-board electronics. For rail vehicles of all kinds Liebherr offers heating, ventilation and air conditioning systems, passive and active hydraulic systems for braking, damping, axle steering and levelling. Furthermore, Liebherr serves the commercial vehicle market with trailer cooling systems.

About the Liebherr Group – 75 years of moving forward

The Liebherr Group is a family-run technology company with a highly diversified product programme. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality, user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 150 companies across all continents. In 2023, it employed more than 50,000 staff and achieved combined revenues of over 14 billion euros. Liebherr was founded by Hans Liebherr in 1949 in the southern German town of Kirchdorf an der Iller. Since then, the employees have been pursuing the goal of achieving continuous technological innovation and bringing industry-leading solutions to its customers. Under the slogan '75 years of moving forward', the Group celebrates its 75th anniversary in 2024.
