First in the fleet: Grúas Pirineos invests in a Liebherr LTM 1650-8.1 mobile crane

- **First Liebherr mobile crane in Grúas Pirineos' fleet**
- **The LTM 1650-8.1 offers tremendous reach and a high lifting capacity**
- **Initial deployments in the wind power industry and on infrastructure projects**

For Grúas Pirineos, the purchase of its first Liebherr mobile crane, the LTM 1650-8.1, marks a true milestone in the company's short history. Thanks to this new acquisition, it can now offer a comprehensive range of services to its customers. The Liebherr LTM 1650-8.1 will be primarily used by Grúas Pirineos in the wind energy, industrial and construction sectors.

Ehingen (Donau) (Germany), 04 November 2024 – Stronger together: Grúas Pirineos was founded in 2024 as a result of a merger between Grúas Losfablos and Grutrans Cabos, with the goal of offering customers powerful and innovative machinery for larger projects. The LTM 1650-8.1 is the first machine in the newly established company's fleet. "We want to offer our customers comprehensive services and meet the demand for machines capable of handling challenging tasks," explains Emilio Losfablos, Managing Director of Grúas Pirineos. With a maximum lifting capacity of 700 tonnes, the new addition can optimally meet the demand for greater reach and lifting power.

Losfablos explains the decision to purchase the LTM 1650-8.1: "We chose the best solution on the market when it comes to load bearing capacity, reach, ease of assembly, innovation, performance and safety." The Liebherr LTM 1650-8.1 mobile crane impresses with its versatility and top-tier performance. It is available with two telescopic boom lengths, 54 metres and 80 metres, and is equipped with Y-telescopic boom guying system, which significantly increases the load bearing capacity and enhances lateral stability. In addition, the crane features a 91-metre luffing jib and a 62-metre lattice-type fixed jib.

Grúas Pirineos will use the Liebherr LTM 1650-8.1 for a wide variety of applications across the wind energy, industrial and construction sectors. To start with, the new crane will carry out lifting jobs in the wind power industry and the assembly of girders for infrastructure projects.

In an exciting development, Grúas Losfablos and Grutrans Cabos merged a year ago to form Grúas Pirineos. Both companies, individually and together, have chosen Liebherr as their trusted business partner. "Liebherr sets the benchmark in the industry, demonstrating this year after year through innovative products, services and after-sales management," says Emilio Losfablos.

About Grúas Pirineos

Grúas Losfablos and Grutrans Cabos are two long-established companies that joined forces to form Grúas Pirineos, combining their experience and synergies to provide the best possible solutions for their customers.

About Liebherr Ibérica

Founded in 1988, Liebherr Ibérica is the Spanish sales and service subsidiary of the Liebherr Group. Liebherr Ibérica is currently responsible for sales and customer service for mobile and crawler cranes, tower cranes, earthmoving machinery, mining equipment and maritime cranes.

About Liebherr-Werk Ehingen GmbH

Liebherr-Werk Ehingen GmbH is a leading manufacturer of mobile and crawler cranes. Its range of mobile cranes extends from 2-axle 35 tonne cranes to heavy duty cranes with a lifting capacity of 1200 tonnes and a 9-axle chassis. Its lattice boom cranes on mobile or crawler travel gear deliver lifting capacities of up to 3000 tonnes. With universal boom systems and extensive additional equipment, they can be seen in action on construction sites throughout the world. The Ehingen site has a workforce of 5,000. An extensive, global service network guarantees the high availability of Liebherr mobile and crawler cranes. In 2023, the Liebherr plant in Ehingen recorded a turnover of 2.81 billion euros.

About the Liebherr Group – 75 years of moving forward

The Liebherr Group is a family-run technology company with a highly diversified product programme. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality, user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 150 companies across all continents. In 2023, it employed more than 50,000 staff and achieved combined revenues of over 14 billion euros. Liebherr was founded by Hans Liebherr in 1949 in the southern German town of Kirchdorf an der Iller. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers. Under the slogan '75 years of moving forward', the Group celebrates its 75th anniversary in 2024.
