Press release

Fourth in the fleet: Rothmund takes a further LTM 1230-5.1 from Liebherr

- **The LTM 1230-5.1 offers superb mission flexibility with its 75-metre telescopic boom**
- **Since 2020, Rothmund has already purchased four LTM 1230-5.1 models from Liebherr**
- **High product quality and excellent customer support are just two of the many reasons to choose Liebherr**

Rothmund GmbH und Montage has purchased another 230-tonne mobile crane from Liebherr. This is now already the fourth LTM 1230-5.1 in the Pforzheim-based company's fleet. The 5-axle model's excellent flexibility, coupled with the 75-metre telescopic boom, were the key factors in the decision to invest in the same model again.

Ehingen (Donau), (Germany), 7 July 2025 - In 2020, Rothmund ordered the first LTM 1230-5.1, at a time when the Coronavirus crisis was crippling many areas of society. Just six months later, the second model followed. The company now has four. "We've bought our now fourth LTM 1230-5.1 because this crane simply represents the ideal concept for us. With the variable VarioBase® support, along with the variable VarioBallast® ballast radius and different ballast variations, we're able to use it on a vast range of jobs. Added to this are its high lifting capacities and very long 75-metre telescopic boom", explains Managing Director Heiko Brückner. "The LTM 1230-5.1 is a real all-rounder and, thanks to its flexibility, is hugely popular - including for concrete and steel construction, tower crane assemblies and industrial jobs."

Ten Liebherr cranes in five years

Since 2021, Rothmund has taken delivery of no fewer than ten new Liebherr mobile cranes. "Aside from the quality and high resale prices, the excellent support is what makes us choose Liebherr. Customer service is professional and speedy, just like the spare parts supply. And one thing that's really important for us: the standardised operation of Liebherr cranes, whether they're large or small. This means we're able to deploy our operators flexibly across all our cranes", says Brückner.

Rothmund GmbH was founded in the Pforzheim area in 1982 as a crane company. Customers' demands grew so quickly that, after eighteen months, three cranes were in operation and five after five years. Today, the company operates more than 20. Over the years, the company has evolved into a service provider for heavy-duty and machinery transport, as well as business relocations. Meanwhile, its portfolio encompasses countless specialist vehicles such as heavy-duty crawler transporters, air cushion systems and loading cranes, as well as miniature crawler cranes.

About Liebherr-Werk Ehingen GmbH

Liebherr-Werk Ehingen GmbH is a leading manufacturer of mobile and crawler cranes. Its range of mobile cranes extends from 2-axle 35 tonne cranes to heavy duty cranes with a lifting capacity of 1,200 tonnes and a 9-axle chassis. Its lattice boom cranes on mobile or crawler travel gear deliver lifting capacities of up to 3,000 tonnes. With universal boom systems and extensive auxiliary equipment, they can be seen in action on construction sites throughout the world. The Ehingen site has a workforce of 5,000. An extensive, global service network guarantees the high availability of Liebherr mobile and crawler cranes. In 2024, the company achieved revenues of Euro 3.18 billion at its Liebherr plant in Ehingen.

About the Liebherr Group

The Liebherr Group is a family-run technology company with a highly diversified product portfolio. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality, user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 150 companies across all continents. In 2024, it employed more than 50,000 staff and achieved combined revenues of over 14 billion euros. Liebherr was founded by Hans Liebherr in 1949 in the southern German town of Kirchdorf an der Iller. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers.

Rothmund chose a very special design for the first LTM 1230-5.1 to mark the company's 40th anniversary in 2021: gold lettering on a black background. The same design also graces the fourth LTM 1230-5.1 in the Rothmund fleet.
