## **New York Concrete Corporation takes delivery of the first Liebherr LB 45.1 drilling rig in the USA with lattice extension at Conexpo 2026**

**At Conexpo 2026, Liebherr delivers the first LB 45.1 drilling rig in the USA with a lattice extension attachment to New York Concrete Corporation. This drilling rig's compact size and easy transport provides an ideal solution for the NYC based contractor.**

Las Vegas, NV (USA), Liebherr USA, Co., March 5, 2026 – [New York Concrete Corporation](#) takes delivery of a Liebherr LB 45.1 drilling rig with lattice extension attachment at Conexpo 2026, North America's largest construction tradeshow. New York Concrete Corporation is one of New York City's largest excavation, foundation, drilling, concrete superstructure and sitework contractors.

Supporting both public and private sector clients, the company relies on Liebherr deep foundation machines to provide safe, efficient, high-quality drilling across the metropolitan area. Due to the complex environment of New York City, the rig's modular design, various drilling axes, and quick set up make it ideal for various project requirements in an urban environment. In addition, this is the first LB 45.1 drilling rig in the USA market with a lattice extension, making it ideal for vertical reach projects in the city.

### **High performer**

Liebherr LB drilling rigs offer higher torque, a wider range of applications and useful assistance systems for improved operator comfort and increased safety in one elegant design. These machines are used worldwide and built to last with virtually no limits to their operational limits.

The [Liebherr 45.1 drilling rig](#) offers various methods including Kelly drilling, continuous flight auger drilling, partial and full displacement drilling or double rotary drilling can be applied. Despite its large machine class, the upper carriage is compact and designed for small working radii allowing for working at complex or tight jobsites in the city. Additionally, the drilling rig provides easy transport, quick set up, and a comfortable cab with an optimized field of vision and increased noise protection for the New York Concrete team of operators.

**About Liebherr USA, Co.**

[Liebherr USA, Co.](#) based in Newport News, VA provides sales and service on behalf of ten different Liebherr product segments: earthmoving, material handling, mining, mobile and crawler cranes, tower cranes, concrete technology, deep foundation machines, maritime cranes; components, and refrigeration and freezing.

## About the Liebherr Group

The [Liebherr Group](#) is a family-run technology company with a highly diversified product programme. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality, user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 150 companies across all continents. In 2024, it employed more than 50,000 staff and achieved combined revenues of over 14 billion euros. Liebherr was founded by Hans Liebherr in 1949 in the southern German town of Kirchdorf an der Iller. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers.
