

Press release

Keller North America purchases a Liebherr LRB 23 piling and drilling rig at Conexpo 2026

Keller North America acquires a Liebherr LRB 23 piling and drilling rig to add to their extensive fleet of Liebherr deep foundation machines stationed across the nation. Both the productivity of the machine and versatility of applications were factors in the purchase.

Las Vegas, NV (USA), Liebherr USA, Co., April 6, 2026 – [Keller North America](#) purchases a Liebherr LRB piling and drilling rig at Conexpo 2026 further expanding their nationwide fleet of deep foundation solutions. The LRB 23 provides Keller with an efficient, reliable, and safe machine that can be used in a wide variety of applications and equipped with many different attachments.

“The exceptional capabilities of the LRB 23 backed by the exceptional service provided by the Liebherr team make this a great addition to our growing fleet of Liebherr machines,” said Mike Fattorusso of Keller North America.

Keller North America provide solutions to geotechnical challenges across the entire country, supporting markets such as commercial, infrastructure, industrial, residential and many more. As a leading geotechnical specialty contractor, Keller North America offers solutions through a variety of applications including deep foundations, environmental remediation, ground improvement, and groundwater control and dewatering to name a few. With extensive experience and a large product range, Keller North America can provide safe and successful solutions to projects throughout the US.

One machine, all applications

The [Liebherr LRB 23 piling and drilling rig](#) closes the gap between the LRB 19 and the long-proven LRB 355.1. An impressive engine output provides the machine with the necessary capacity for all common deep foundation work, such as Kelly drilling, double rotary drilling, full displacement equipment and continuous flight auger, as well as soil mixing and applications with a vibrator or hydraulic hammer. The piling and drilling rig also offers a new, compact design that is not only functional, but safe providing optimal efficiency for each of Keller North America’s projects.

About Liebherr USA, Co.

[Liebherr USA, Co.](#) based in Newport News, VA provides sales and service on behalf of ten different Liebherr product segments: earthmoving, material handling, mining, mobile and crawler cranes, tower cranes, concrete technology, deep foundation machines, maritime cranes; components, and refrigeration and freezing.

About the Liebherr Group

The [Liebherr Group](#) is a family-run technology company with a highly diversified product programme. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality, user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 150 companies across all continents. In 2024, it employed more than 50,000 staff and achieved combined revenues of over 14 billion euros. Liebherr was founded by Hans Liebherr in 1949 in the southern German town of Kirchdorf an der Iller. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers.
