

Press release

Liebherr to exhibit at the 2023 ISRI Convention & Exposition

- Location: Music City Convention Center, Nashville, TN
- Show dates: April 17-20, 2023
- Liebherr Booth # B8

Liebherr USA, Co.'s Earthmoving and material handling technology team will be exhibiting at the ISRI Convention & Exposition in April 2023 showcasing the L 556, R 922, and LH 60 M with GMM 80 grapple as well as additional material handling technology machines.

Newport News, VA (USA), Liebherr USA, Co., Earthmoving and material handling technology, March 6, 2023 – The annual ISRI Convention and Exposition will take place in Nashville, Tennessee from April 17-20, 2023. Organized by the Institute of Scrap Recycling Industries, Inc., ISRI provides an annual platform for the recycling community to gain expert knowledge and network with industry peers.

This four-day show will offer attendees the option to visit over 275+ exhibitors. Liebherr will be at booth #B8 featuring multiple machines as well as a traditional biergarten.

Liebherr will be showcasing an LH 60 M, L 556, and R 922, as well as other material handling technology. Special Applications Product Manager, Chris Keyes noted, "Liebherr is proud to be a continuous member of ISRI. We take part in various chapter meetings and events throughout the country. This large-scale convention provides us a great chance to connect with our peers on advancements in scrap and recycling technology." Keyes will be on site at the Liebherr booth for any additional inquiries.

Machines on display

The LH 60 M Industry is optimized for heavy duty material handling in the areas of scrap, timber, and harbor-related operations. The machine is equipped with the patented Liebherr ERC System (energy recovery system), that gives it a boost in performance and saves fuel. This results in significantly greater material handling performance as well as improved machine economy. The attachment for the LH 60 M is also available in a variety of options for every application.
