L 550 – L 586 XPower®

LIEBHERR

Wheel loaders

Generation
6

Tipping load
12,500 kg – 21,600 kg

Diesel engine
Stage V
Stage IV – only for select markets

Performance

More power, greater productivity –
increased performance through an
innovative travel drive

Economy

Efficient performance guaranteed –
low costs with high turnover rate

Reliability

A reliable partner –
robust and durable machines

Comfort

Sophisticated design –
when technology combines comfort and safety

Maintainability

Savings in both time and costs –
thanks to quick and simple maintenance

L 550 XPower®

Tipping load, articulated
12,500 kg
Bucket capacity
3.4 m³
Operating weight
18,550 kg
Engine output
163 kW / 222 HP

L 556 XPower®

Tipping load, articulated
13,750 kg
Bucket capacity
3.7 m³
Operating weight
19,600 kg
Engine output
183 kW / 249 HP

L 566 XPower®

Tipping load, articulated
15,900 kg
Bucket capacity
4.2 m³
Operating weight
23,900 kg
Engine output
203 kW / 276 HP

L 576 XPower®

Tipping load, articulated
17,600 kg
Bucket capacity
4.7 m³
Operating weight
25,700 kg
Engine output
218 kW / 296 HP

L 580 XPower®

Tipping load, articulated
19,200 kg
Bucket capacity
5.2 m³
Operating weight
27,650 kg
Engine output
233 kW / 317 HP

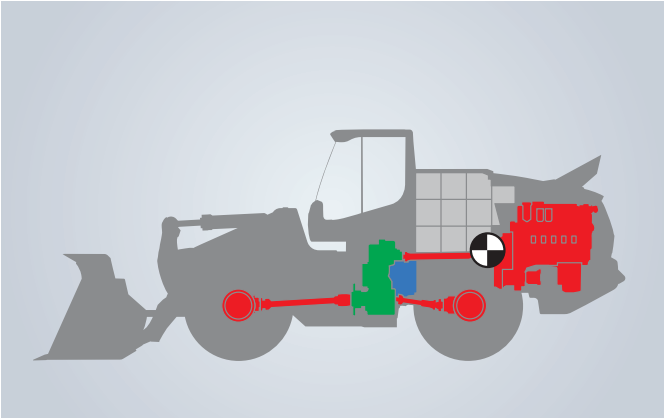
L 586 XPower®

Tipping load, articulated
21,600 kg
Bucket capacity
6.0 m³
Operating weight
32,600 kg
Engine output
263 kW / 358 HP

Performance

More power, greater productivity – increased performance through an innovative travel drive

The innovative Liebherr-XPower travel drive combines the best features of two types of drive into a unique machine concept. Faster work cycles, high tipping loads, and increased machine availability result in significant handling capacity.



Powerful machine concept
- The drive components installed in the rear of the wheel loader act as a natural counterweight and are part of the sophisticated ballast concept
- Ideal weight distribution results in higher tipping loads and therefore greater productivity
- Balanced operating mass increases efficiency and saves fuel
- Strong designs and robust steel parts ensure a reliable and powerful machine

Maximum performance
- Liebherr-XPower travel drive combines hydrostatic and mechanical drives
- Interaction of the two drive types is automatically and continuously adapted to the respective operation
- XPower® offers the highest efficiency in material pick-up and transport as well as optimum acceleration and maximum performance in all loading cycles

Lift arm variations operationally optimised
- Standard z-bar kinematics provide high torque in the lower lift arm range
- Particularly suitable for conventional wheel loader operations due to quick and easy filling of the bucket
- Industrial lift arms (for L 550 – L 566 / L 580) scores with parallel movement and offer particularly high torque in the upper lift arm range
- Particularly suitable for industrial use, large working attachments, and heavier loads

Great versatility for the optimum handling of material
- Due to the diverse selection of factory-made working attachments the right tool is always available
- The robust bucket design enables the bucket to be filled fast and efficiently
- Excellent bucket penetration and easy bucket filling result in lower fuel consumption
- Modular bucket design for L 550 and L 556 G6.2 allows individual configuration, suitable for every application

Economy

Efficient performance guaranteed – low costs with high turnover rate

Power, speed, and durability combined with innovative technology result in an optimum machine design that makes a reliable contribution to cost-effective success. The efficient Liebherr-XPower travel drive and the robust components reduce operating costs in a sustainable way.

Maximum productivity with minimum fuel consumption
- Liebherr power efficiency (LPE) optimises the interaction between the diesel engine, transmission, and working hydraulics for maximum efficiency
- Liebherr-XPower travel drive with LPE provides enormous fuel savings
- At the highest efficiency, operating costs are reduced, and profitability is increased

Minimum wear due to intelligent machine concept
- Virtually no brake wear due to the hydraulic-mechanical braking action
- Continuous tractive force control combined with automatic self-locking differentials prevents wheel spin, thereby increasing productivity and significantly reducing tyre wear

Efficient management with LiDAT
- Liebherr's own data transmission and positioning system
- Optimal management, monitoring and control of the entire fleet in terms of machine data acquisition, data analysis, fleet management and service
- Evaluations of machine use and fuel consumption ensure the machines are managed cost-effectively
- Standard availability of LiDAT incl. 1st year of free use

LIKUFIX
- Optional available, hydraulic quick coupler with integrated automatic hydraulic coupling system
- Hydraulic working tools changed within seconds directly from the cab
- Change is fully automatic, safe and leak-free
- Time savings thanks to greater convenience lead to increased performance, saving time and money

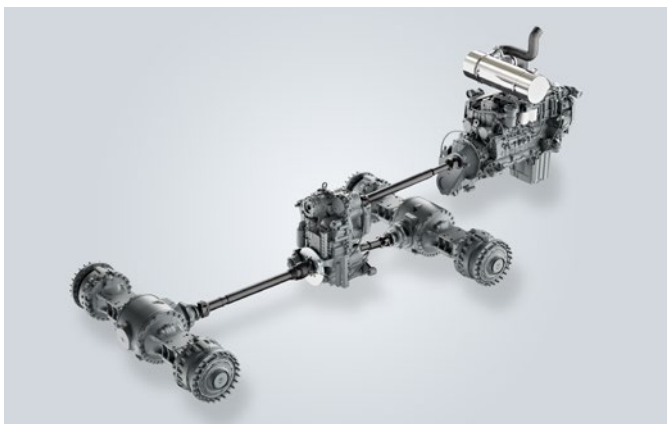
Reliability

A reliable partner – robust and durable machines

Tried and tested over decades with proven excellence – the specially developed components of Liebherr wheel loaders demonstrate their sophisticated technology and durability. The high degree of quality offers maximum reliability and availability even under the toughest operating conditions.

High performance and long-lasting components
- Decades of experience in the development, design and production of individual components is reflected in their robustness and durability
- Elements are ideally matched for maximum performance
- High Liebherr quality standards ensure reliability even under the toughest operating conditions

Working without interruption
- Diesel oxidation catalysts (DOC) and diesel particulate filters (DPF) as well as selective catalytic reduction (SCR) are installed for exhaust gas treatment, and lower pollutant emissions
- The diesel particulate filter can be unblocked during operation via active regeneration, thus enabling an uninterrupted work process
- Long intervals between regenerations increase productivity, save fuel, and reduce operating costs



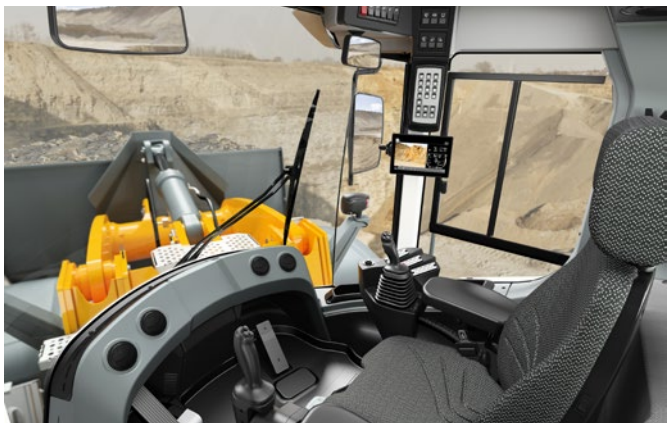
Reliable Liebherr drive design
- Variable distribution of forces between the hydrostatic and mechanical drives result in less stress on each of the drive paths
- Long service life and reliable use of the machine thanks to Liebherr-XPower travel drive

Optimal cooling capacity
- The radiator is installed behind the operator's cab – the cleanest place on the wheel loader
- Demand-controlled cooling via thermostatic control for reliable operation
- High machine availability due to less radiator contamination
- The optional equipments such as the reversible fan drive, lint filter for the radiator, and the coarse-mesh radiator, additionally protect the cooling system from contamination

Comfort

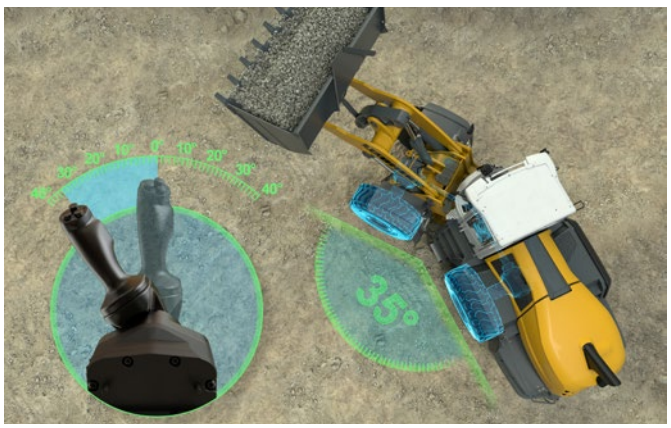
Sophisticated design – when technology combines comfort and safety

A feel-good cab – the modern cab design is optimally adapted to the day-to-day needs of the operators. The spacious and ergonomically designed operator's cab provides the perfect conditions for comfortable and productive working and can be individually adjusted to the operator.

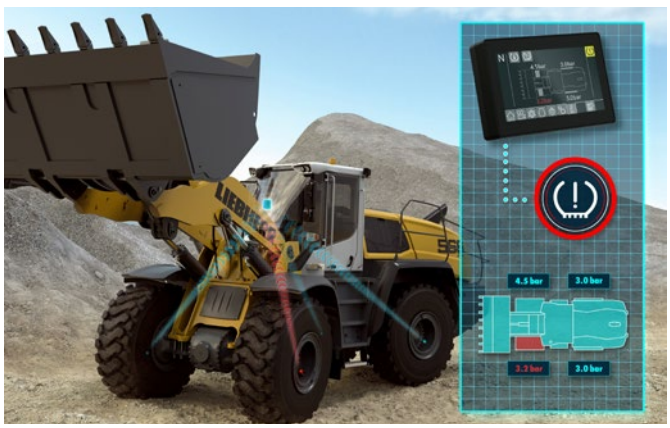


Modern cab design for greater productivity
- Modern ergonomic cab design enables focused working with less fatigue
- Displays, control elements and operator's seat are perfectly aligned with one another to form an ergonomic unit
- For the operator, the individual adjustment options on the operator's seat and the steering wheel create a comfortable work atmosphere with plenty of legroom
- Numerous storage compartments provide lots of space in the cab on all sides

Keep an eye on everything – for hazard-free work
- The extensive use of glass in the operator's cab provides excellent all-round visibility of the working attachment and operating area
- The engine bonnet was designed with optimised visibility in mind and this together with the integrated reversing camera ensure an excellent overview and thus provide greater safety
- Height-adjustable 9" touch screen display provides all operating-relevant machine data at a glance



Innovative joystick steering
- Optional joystick steering is integrated into the operator's seat for ergonomic and comfortable operation
- Intuitive operating behaviour resembles that of a steering wheel
- The alignment of the joystick corresponds to the required wheel loader articulation angle
- Speed-dependent force feedback ensures precise and safe steering behaviour
- "Joystick steering only" enables operation in an operator's cab without a steering wheel and steering column



Assistance systems – increase safety conveniently
- Active personnel detection monitors the rear area of the wheel loader and warns of hazards with a visual and acoustic signal
- Tyre pressure monitoring system transmits tyre pressure values directly to the driver display
- Skyview 360° simplifies monitoring close surroundings of the entire machine on a separate display in the operator's cab
- The weighing device with "Truck Payload Assistant" ensures faster and more accurate loading cycles
- Further assistance systems are available at customer request

Maintainability

Savings in both time and costs – thanks to quick and simple maintenance

Intelligent installation of components, quick and easy access to the engine compartment, and maximum efficiency down to the smallest detail are crucial for effective maintenance work. All installed parts which need to be serviced can be reached safely and quickly. This saves time and costs.

Safe and sophisticated service access
- Electrically rear-opening engine bonnet provides safe and easy access to the entire engine compartment
- All maintenance work can be conveniently performed from a platform in the engine bonnet
- Improved access to the front windscreen / cab filter box is provided by the cab access on the right side of the machine

Low maintenance effort due to intelligent costruction
- Simple and safe maintenance ensures less downtime
- Less contamination of the radiator due to its intelligent position directly behind the operator's cab
- The most important fill levels can be seen in the entry area

Increased efficiency down to the smallest detail
- Non-slip treads and sturdy handrails ensure maximum safety while cleaning
- Quick and easy maintenance shortens downtime, increases productivity, and saves money

Liebherr customer service
- Comprehensive service network provides effective and prompt support
- Fast and reliable service implementation by qualified service specialists

Focus on innovation and safety

Lift arms

Cleverly designed – one wheel loader, two lift arm variants, and numerous application options – while the standard z-bar kinematics ensure high torque in the lower lift arm position, the industrial kinematics provide optimum, parallel movement, and particularly high torque in the upper lift arm position. This means that the XPower® wheel loaders are optimally equipped for any task and can perform the work powerfully and efficiently.

Drive concept

Powerful performance – the Liebherr-XPower travel drive combines the hydrostatic drive for short loading cycles, with the mechanical drive for long distances and inclines. The standard combination of these two drive types offers the highest efficiency in all application areas and results in a lower load on the respective drive path.

Comfort

Intuitive and comfortable – the ergonomically optimised cab design enables comfortable and less tiring work. The large glazed area and the visibility-optimised engine bonnet design provide an unobstructed view in all directions. The joystick steering allows precise and productive work through intuitive and exact control. The optional “joystick steering only” provides an even better view of the lift arms and the working attachment as well as more space in the operator’s cab.

Assistance systems

Intelligent helpers – the innovative assistance systems offer comprehensive solutions to optimise safety and comfort, supporting the operator and therefore increase performance. The simple handling and intuitive operation enable safe, efficient, and therefore more economical machine operation.

Maintenance

Safer service – the unique installation position of the components results in excellent maintenance accessibility. Supported by the latest technology, you have safe and easy access to the entire engine compartment. Short downtimes and fast maintenance work lead to greater productivity and a higher profitability of the machine.

Technical data

Diesel engine

		L 550	L 556
Diesel engine		D934 A7	D944 A7
Design		Water-cooled in-series engine with charge-air cooling	
Cylinder inline		4	4
Fuel injection process		Electronic Common Rail high-pressure injection	
Output to	kW / HP	160 / 218	180 / 245
ISO 9249 / ECE-R.24	at RPM	1.800	1.800
Rated output to			
ISO 14396 / ECE-R.120	kW / HP	163 / 222	183 / 249
Nominal speed	at RPM	1.800	1.800
Max. torque to	Nm	1.248	1.403
ISO 14396 / ECE-R.120	at RPM	1.100	1.150
Displacement	litres	7,014	7,964
Bore / Stroke	mm	122 / 150	130 / 150
Stage IV – available only in select markets			
Harmful emissions values		According to regulation ECE-R.96 Power Band Q	
Emission control	litres	Liebherr-SCR technology	
Stage V			
Harmful emissions values		According to regulation (EU) 2016/1628	
Emission control		Liebherr-SCR technology and closed diesel particle filter system	
Air cleaner system		Dry type filter with main and safety element, pre-cleaner, service indicator on the Liebherr display	
Electrical system			
Operating voltage	V	24	24
Capacity	Ah	2 x 140	2 x 140
Alternator	V / A	28 / 140	28 / 140
Starter	V / kW	24 / 7.8	24 / 7.8

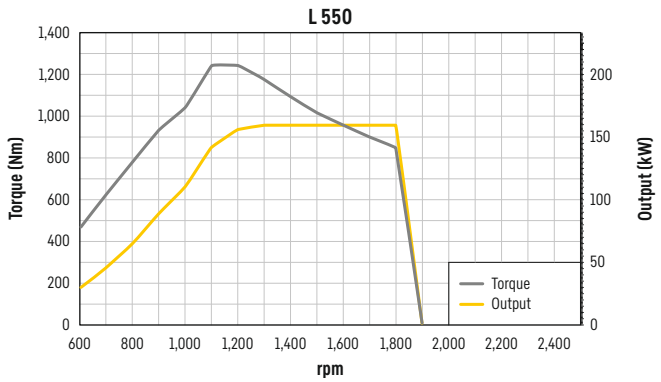
Driveline

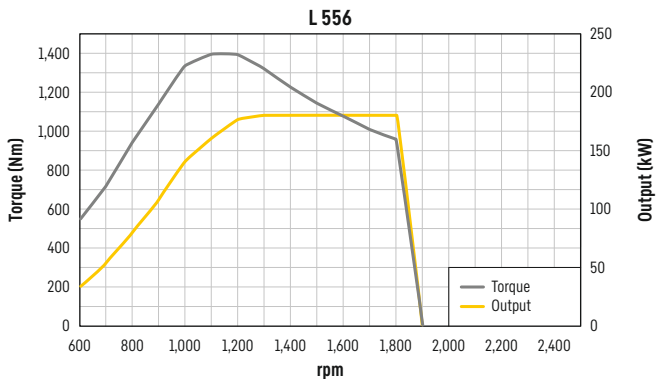
Continuous power split XPower® driveline	
Design	Continuous, fully-automatic XPower® driveline. No traction interruptions across the entire speed range. Hydrostatic power split with two axial piston units. Identical driving performance – forwards and in reverse
Filtration	Filter system for driveline, depend on working hydraulics
Control	Driveline is controlled from travel pedal for tractive force and speed setting with integrated inch function. The Liebherr control lever is used to control forward and reverse travel
Travel speed range	0 – 40 km/h forward and reverse, fully-automatic Speed restriction available upon request. Speeds quoted apply with the tyres indicated as standard on loader model.

Brakes

Wear-free service brake	Self-locking of the XPower® driveline (acting on all four wheels) and additional pump-accumulator brake system with wet multi-disc brakes (two separate brake circuits)
Parking brake	Electro-hydraulically actuated spring-loaded disc brake system on the transmission

The braking system meets the requirements of the ISO 3450.





Axles

		L 550	L 556
Four-wheel drive			
Front axle		Fixed	
Rear axle		Centre pivot, with 13° oscillating angle to each side	
Height of obstacles which can be driven over	mm	460 with all four wheels remaining in contact with the ground	442
Differentials		Automatic limited-slip differentials	
Reduction gear		Planetary final drive in wheel hubs	
Track width		2,003 mm with all types of tyres	

Steering

Design	"Load-sensing" swash plate type variable flow pump with pressure cut-off and flow control. Central pivot with two double-acting, damped steering cylinders
Angle of articulation	40° to each side
Emergency steering	Electro-hydraulic emergency steering system

Attachment hydraulics

		L 550	L 556
Design		"Load-sensing" swash plate type variable flow pump with output and flow control, and pressure cut-off in the control block	
Cooling		Hydraulic oil cooling using thermostatically controlled fan and oil cooler	
Filtration		Return line filter in the hydraulic reservoir	
Control		Liebherr control lever, electro-hydraulically operated	
Lifting function		Lifting, neutral, lowering Automatic lift arm position and lowering by Liebherr control lever Float position controlled by Liebherr control lever	
Tilt function		Tilt back, neutral, dump Automatic bucket return for tilting back and dumping controlled by Liebherr control lever	
Max. flow	l/min.	234	290
Max. pressure			
Z-bar linkage	bar	350	350
Industrial lift arm	bar	380	380

Attachment

		L 550		L 556

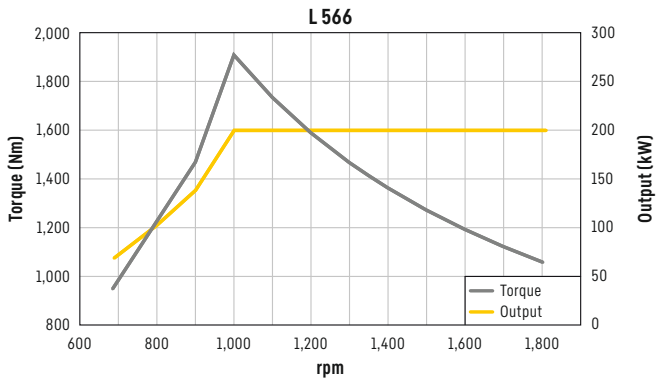
Driveline

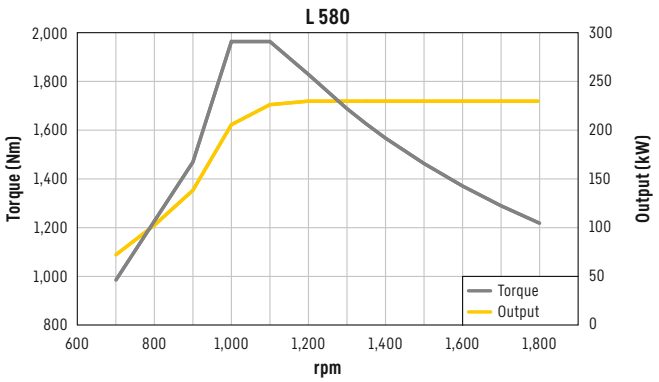
Continuous power split XPower® driveline	
Design	Continuous, fully-automatic XPower® driveline. No traction interruptions across the entire speed range. Hydrostatic power split with two axial piston units. Identical driving performance – forwards and in reverse
Filtration	Filter system for driveline, depend on working hydraulics
Control	Driveline is controlled from travel pedal for tractive force and speed setting with integrated inch function. The Liebherr control lever is used to control forward and reverse travel
Travel speed range	L 566 – L 580: 0 – 40 km/h forward and reverse, fully-automatic. L 586: 0 – 33 km/h forward and reverse, fully-automatic. Speed restriction available upon request. Speeds quoted apply with the tyres indicated as standard on loader model.

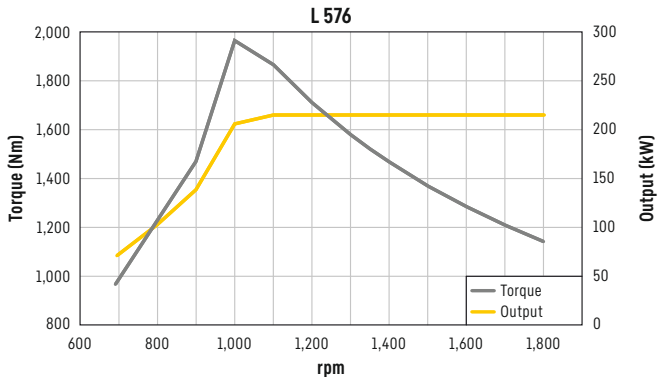
Brakes

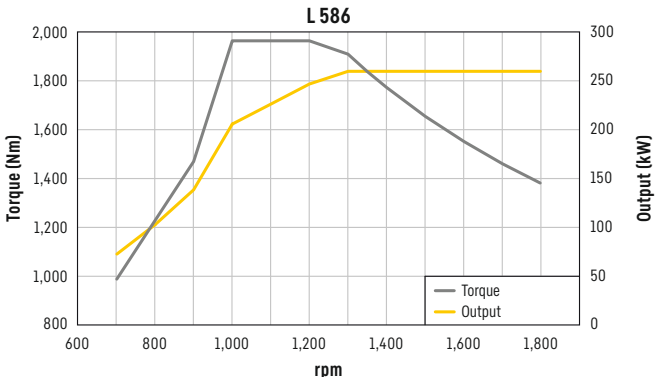
Wear-free service brake	Self-locking of the XPower® driveline (acting on all four wheels) and additional pump-accumulator brake system with wet multi-disc brakes (two separate brake circuits)
Parking brake	Electro-hydraulically actuated spring-loaded disc brake system on the transmission

The braking system meets the requirements of the ISO 3450.









Axles

		L 566	L 576	L 580	L 586
Four-wheel drive					
Front axle		Fixed			
Rear axle		Centre pivot, with 13° oscillating angle to each side			
Height of obstacles which can be driven over	mm	492	473	473	523
		with all four wheels remaining in contact with the ground			
Differentials		Automatic limited-slip differentials			
Reduction gear		Planetary final drive in wheel hubs			
Track width		2,230 mm with all types of tyres (L 566, L 576, L 580) 2,440 mm with all types of tyres (L 586)			

Steering

Design	"Load-sensing" swash plate type variable flow pump with pressure cut-off and flow control. Central pivot with two double-acting, damped steering cylinders
Angle of articulation	38° to each side (L 566, L 576, L 580) 37° to each side (L 586)
Emergency steering	Electro-hydraulic emergency steering system

Attachment hydraulics

		L 566	L 576	L 580	L 586
Design		"Load-sensing" swash plate type variable flow pump with output and flow control, and pressure cut-off in the control block			
Cooling		Hydraulic oil cooling using thermostatically controlled fan and oil cooler			
Filtration		Return line filter in the hydraulic reservoir			
Control		Liebherr control lever, electro-hydraulically operated			
Lifting function		Lifting, neutral, lowering Automatic lift arm position and lowering by Liebherr control lever Float position controlled by Liebherr control lever			
Tilt function		Tilt back, neutral, dump Automatic bucket return for tilting back and dumping controlled by Liebherr control lever

Tipping load

ISO 14397-1

What is tipping load?
Load at centre of gravity of working equipment, so that the wheel loader just begins to tip over the front axle.
This is the most unfavourable static-load position for the wheel loader. Lifting arms horizontal, wheel loader fully articulated at centre pivot.

Pay load.
The pay load must not exceed 50 % of the tipping load when articulated.
This is equivalent to a static stability-margin factor of 2.0.

Bucket capacity.
The bucket volume is determined from the pay load.

$$\text{Pay load} = \frac{\text{Tipping load, articulated}}{2}$$

$$\text{Bucket capacity} = \frac{\text{Pay load (t)}}{\text{Specific bulk weight of material (t/m}^3\text{)}}$$

Environmental protection can help you earn money!

Always in fuel saving mode with the Liebherr fuel-saving calculator
100 % power with up to 30 % less fuel consumption – the Liebherr fuel saving calculator shows how much fuel can be saved compared to similar machines. The online application is available free of charge and provides a quick and simple overview of fuel savings per year in euros.
The calculation is based on average fuel consumption, operating hours per year and the current fuel price. The potential savings when operating a Liebherr wheel loader are impressive – see for yourself!

	Ø Litres / hour *
L 526: 2.1 m³	6.3
L 538: 2.6 m³	7
L 546: 2.8 m³	7.3
L 550: 3.4 m³	8.9
L 556: 3.7 m³	9.9
L 566: 4.2 m³	12.2
L 576: 4.7 m³	12.8
L 580: 5.2 m³	13.9
L 586: 6.0 m³	16.6

* Wheel loader in practical customer applications with individual machine configurations. Average data from LiDAT from 24.08.2022.

Experience just how much fuel you can save!

Equipment

Basic wheel loader	L 550	L 556	L 566	L 576	L 580	L 586
Crash protection, rear	+	+	+	+	+	+
Automatic central lubrication system	+	+	+	+	+	●
Battery main switch (lockable)	●	●	●	●	●	●
Electronic tractive force regulation for difficult ground conditions	●	●	●	●	●	●
Travel light (with additional headlights) on front section halogen	+	+	+	+	+	+
Travel light (with additional headlights) on front section LED	+	+	+	+	+	+
Ride control	●	●	●	●	●	●
Parking brake	●	●	●	●	●	●
Fire extinguisher 6 kg	+	+	+	+	+	+
Fluff trap for radiator	+	+	+	+	+	+
Speed limitor 20 km/h as a factory preset	+	+	+	+	+	+
Speed limitor V_{MAX} adjustable key on the control unit	●	●	●	●	●	●
DEF tank	●	●	●	●	●	●
Turbocharger insulation	+	+	+	+	+	+
Pre-heat system for cold starting	●	●	●	●	●	●
Rear license panel light	+	+	+	+	+	+
Combined inching-braking system	●	●	●	●	●	●
Fuel pre-filter	●	●	●	●	●	●
Fuel pre-filter with pre-heating	+	+	+	+	+	+
Large-mesh radiator	+	+	+	+	+	–
Cooling water pre-heating 230 V	+	+	+	+	+	+
Multi-disc limited slip differentials in both axles	●	●	●	●	●	●
Liebherr biodegredable hydraulic oil	+	+	+	+	+	+
Liebherr SCR technology incl. diesel particle filter	●	●	●	●	●	●
Reversible fan drive	+	+	+	+	+	+
Automatic delayed engine stop	+	+	+	+	+	+
Widening for mudguard	+	+	+	+	+	+
Ramming guard with guard	+	+	+	+	+	–
Headlights halogen (double design on engine hood)	●	●	●	●	●	●
Headlights LED (double design on engine hood)	+	+	+	+	+	+
Guard for headlights	+	+	+	+	+	+
Auxiliary heater (Additional heating with engine preheating)	+	+	+	+	+	+
Dust protection for alternator	+	+	+	+	+	+
Road travel counterweight	●	●	+	–	–	–
Lockable doors and engine hood	●	●	●	●	●	●
Tunnel package	+	+	+	+	–	–
Chassis protection rear	+	+	+	+	+	+
Chassis protection front	+	+	+	+	+	+
Air pre-cleaner TOP AIR	+	+	+	+	+	+
Toolbox with toolkit	●	●	●	●	●	●
Liebherr weighing system with “Truck Payload Assist” (cannot be certified as a regulated weights and measure device)	+	+	+	+	+	+
Towing hitch	●	●	●	●	●	●
Additional handrails left	●	●	●	●	●	●
Additional handrails right	+	+	+	+	+	+

Equipment	L 550	L 556	L 566	L 576	L 580	L 586
Working hydraulics lockout	●	●	●	●	●	●
Automatic bucket return programmable	●	●	●	●	●	●
Pressure relief for hydraulic additional function	+	+	+	+	+	+
Stroke limit damping	+	+	+	+	+	+
Fork carrier and pallet forks	+	+	+	+	+	+
High-dump bucket	+	+	+	+	+	+
Log grapple	+	+	+	–	+	–
Automatic lift arm position and lowering programmable	●	●	●	●	●	●
High Lift arms	+	+	+	+	+	+
Industrial lift arm	+	+	+	–	+	–
Lift arm Z-bar linkage	●	●	●	●	●	●
Hydraulic quick hitch	+	+	+	+	+	+
Hydraulic quick hitch LIKUFIX	+	+	+	+	+	–
Adjustable tipping speed	●	●	●	●	●	●
Tilt cylinder protection	+	+	+	+	+	+
Loading buckets incl. a range of cutting tools	+	+	+	+	+	+
Light material bucket	+	+	+	+	+	+
Pipe break protection	+	+	+	+	+	+
Bucket tilt assistant	+	+	+	+	+	+
Float position	●	●	●	●	●	●
Visualisation of the equipment position	●	●	●	●	●	●
1st electro-hydraulic, proportional additional function, adjustable delivery flow	+	+	+	+	+	+
1st additional electro-hydraulic function for continuous sweeper and snow blower operation	+	+	+	+	+	+
2nd electro-hydraulic, proportional additional function, adjustable delivery flow	+	+	+	+	+	–
2nd additional electro-hydraulic function for continuous sweeper and snow blower operation	+	+	+	+	+	–

Equipment

Operator's cab	L 550	L 556	L 566	L 576	L 580	L 586
Adapter plate for additional fastening on the multi-function rail	+	+	+	+	+	+
Adaptive working lighting	+	+	+	+	+	+
Access assistance to facilitate cleaning windscreen	●	●	●	●	●	●
Exterior mirror, electrical adjustable, with heating	+	+	+	+	+	+
Exterior mirror, tiltable and adjustable	●	●	●	●	●	●
Operating hour meter (integrated in display unit)	●	●	●	●	●	●
Operating hour meter (mechanic)	+	+	+	+	+	+
Electronical theft protection with code	+	+	+	+	+	+
Electronical theft protection with key with / without driver identification	+	+	+	+	+	+
Storage box left	●	●	●	●	●	●
Operator's cab without steering wheel / steering column (not available as street legal) – joystick steering only	+	+	+	+	+	+
Operator seat "Comfort" – pneumatic suspension with seat heating	●	●	●	●	●	●
Operator seat "Premium" – active air-suspension with seat air-condition, seat heating and headrest	+	+	+	+	+	+
Particle filter F7	●	●	●	●	●	●
Fire extinguisher in cab 2 kg	+	+	+	+	+	+
Rear window heated electrically	●	●	●	●	●	●
Audible horn control integrated into Liebherr control lever	+	+	+	+	+	+
Interior mirror right	●	●	●	●	●	●
Interior mirror left and right	+	+	+	+	+	+
Integrated tyre pressure monitoring system	+	+	+	+	+	+
Joystick steering	+	+	+	+	+	+
Floor mat	●	●	●	●	●	●
Clothes hooks (2 pieces)	●	●	●	●	●	●
Air conditioning system	●	●	●	●	●	●
Automatic air conditioning system	+	+	+	+	+	+
Cool box	+	+	+	+	+	+
3 way continuously adjustable steering column (height-adjustable, tilting, folding)	●	●	●	●	●	●
Steering stabilisation	●	●	●	●	●	●
LiDAT total use 1 year (for free)	●	●	●	●	●	●
Liebherr control lever with mini-joystick for 1st and 2nd electro-hydraulic, proportional additional function moving with operator's seat	+	+	+	+	+	+
Liebherr control lever moving with operator's seat (incl. kick down, travel direction)	●	●	●	●	●	●
Liebherr multi-lever control system moving with operator's seat (incl. kick down, travel direction)	+	+	+	+	+	+
Liebherr key with remote control incl. Coming Home / Leaving Home function	+	+	+	+	+	+
Premiumdisplay (Touchscreen), with height adjustment and tilting function	●	●	●	●	●	●
Preparation for radio installation	+	+	+	+	+	+
Radio Liebherr "Comfort" (USB / AUX / BLUETOOTH / handsfree set)	+	+	+	+	+	+
Radio Liebherr "Standard" (USB / AUX)	+	+	+	+	+	+

Operator's cab	L 550	L 556	L 566	L 576	L 580	L 586
Amber beacon swiveling / fixed	+	+	+	+	+	+
Soundproof ROPS / FOPS cab	●	●	●	●	●	●
Bucket return with button integrated into Liebherr control lever	+	+	+	+	+	+
Wipe and wash system	●	●	●	●	●	●
Windscreen wiper single-sweep function with button	+	+	+	+	+	+
Headlights rear, single design, halogen / LED	+	+	+	+	+	+
Headlights rear, double design, LED	+	+	+	+	+	+
Headlights rear, triple design, LED	+	+	+	+	+	+
Headlights front, double design, halogen	●	●	●	●	●	●
Headlights front, double design, LED	+	+	+	+	+	+
Sliding window left/right	●	●	●	●	●	●
Slipcover for operator seat	+	+	+	+	+	+
Windscreen guard	+	+	+	+	+	+
Sunblind rear	+	+	+	+	+	+
Sunblind front	●	●	●	●	●	●
Power socket 12 V	●	●	●	●	●	●
Power socket USB	●	●	●	●	●	●
First aid kit	+	+	+	+	+	+
Preparation for protective ventilation and dust filtrating device	+	+	+	+	+	+
Wide angle mirror	+	+	+	+	+	+
Cigarette lighter	●	●	●	●	●	●
2-in-1 steering – changeable	+	+	+	+	+	–

Safety	L 550	L 556	L 566	L 576	L 580	L 586
Active personnel detection at the rear	+	+	+	+	+	+
Roof camera for front area monitoring (with Liebherr camera via Liebherr display)	+	+	+	+	+	+
Country-specific versions	+	+	+	+	+	+
Emergency steering system	●	●	●	●	●	●
Reversing obstruction detector	+	+	+	+	+	+
Back-up alarm acoustic / visual	+	+	+	+	+	+
Rear space monitoring with camera (with Liebherr camera via Liebherr display)	●	●	●	●	●	●
Skyview 360°	+	+	+	+	+	+

• = Standard
+ = Option
– = not available

The Liebherr Group

Global and independent: more than 70 years of success
Liebherr was founded in 1949 when, with the development of the world's first mobile tower crane, Hans Liebherr laid the foundations for a family business now employing nearly 50,000 people and comprising over 140 companies across every continent.
The parent company is Liebherr-International AG in Bulle, Switzerland, whose associates are exclusively members of the Liebherr family.

Leaders and pioneers
Liebherr is a pioneer and its forward-looking approach has seen it make important contributions to technology history over a wide variety of industries. Employees throughout the world continue to share the courage of the founder, sharing a passion to produce innovative products and a determination to provide world-leading equipment and machinery.

Diversified portfolio
The company is one of the world's biggest construction equipment manufacturers and provides high-quality, user-oriented products and services to sectors including: earthmoving, material handling, deep foundations, mining, mobile and crawler cranes, tower cranes, concrete production and distribution, maritime cranes, aerospace and transportation, gear technology and automation, refrigeration and freezing, components and hotels.

Customised care
Liebherr solutions are characterised by precision, implementation and longevity. The company is committed to technological excellence and to providing customers with solutions that match their needs exactly. That customer focus does not end with delivery of a product but continues through a comprehensive range of back-up and support services.
