Earthmoving

# Liebherr Earthmoving

---

**Robust earthmoving technology for military, emergency management and infrastructure measures.**

We provide high-performance, off-road construction machines to support the military, engineering and logistics forces, civil defense organizations and authorities at home and abroad.

Our machine portfolio is supplemented by specially developed attachments and quick coupler systems for military applications that enable maximum versatility in use - from earthworks and handling to logistics support tasks.

Our machines are used to alter terrain, create infrastructure and implement emergency measures. Quickly, reliably and operational.

## **Our earthmoving portfolio – Operational, mobile & effective**

- Crawler excavators
- Wheeled excavators
- Telescopic handlers
- Crawler dozers
- Wheel loaders
- Dump trucks
- Quick coupler systems and attachments
- Remote control
- Autonomy
- Protected/unprotected
