Interior light	LED light panel, both sides
Fruit and vegetable bins	1 EasyFresh safe on telescopic rails
Freezer compartment	
Star coding	****
Interior light	LED lighting
Number of drawers	3 drawers, VarioSpace
Features	
Side-by-Side concept	Side wall heating left, suitable for combination with other refrigerators, freezers and/or wine appliances
Door hinges	Reversible door hinging, right
Replaceable door seal	yes
EAN-Nr.	-

¹ To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 1.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

Features

EasyFresh

The guarantee of market freshness in the home is our EasyFresh-Safe. Whether it's unpackaged vegetables or fruit, this ensures optimal storage for everything. Thanks to the air-tight closure, the food causes the humidity in the safe to rise. This keeps the food fresh for a long time.

DuoCooling

DuoCooling uses two completely separate refrigeration circuits to ensure no air is exchanged between the fridge and freezer compartments. The food neither dries out nor is odour transferred. This means throwing less away, shopping less often, but saving more and greater enjoyment.

NoFrost

When you open your freezer, you want to see frozen food – and certainly not ice and frost. NoFrost protects the freezer compartment from unwanted icing, which consumes a lot of energy and can be expensive. NoFrost means no more tedious and time-consuming defrosting of the freezer compartment, more time for other things – and saving money.

SmartSteel

Thanks to its SmartSteel surface, the purist design language of the appliance is the perfect accent to any kitchen. The horizontal polish brings out the stainless steel and gives it a silky sheen and a pleasant feel. The special coating minimises fingerprints and makes the surface insensitive to scratches. So nothing disturbs the high-quality exterior.

VarioTemp

Enjoy total flexibility in food storage with VarioTemp. You can set the freezer compartment between -15 °C and -26 °C, or convert it to a fridge or cellar compartment when additional cooling space is required, with an adjustable temperature range from -2 °C to +14 °C. If you don't need the freezer compartment at all, simply switch it off independently of the fridge to save energy and money.

LightTower

Enjoy an optimally illuminated interior: the LightTower shows off the food in its best light and is positioned so that all of your filled fridge is illuminated at all times. The flush mounting of the LightTower in the side walls means there is also more space for your food.

Technical drawing

Products and their details are staged for advertising purposes. Whilst every effort is made to ensure all specifications and information in this flyer are accurate, Liebherr reserves the right to make changes without notification. Where actual appliance measurements, specifications, and ratings are crucial, we recommend that the actual appliance installation instructions that accompany each appliance be checked. Liebherr will not be liable for any damage. (11.02.2025)
