

For perfect food storage, alongside the ideal temperature, optimal humidity is a decisive factor. At Liebherr, we have developed innovative freshness technologies and we improve them year after year. For each type of fresh food, we have just the right freshness technology:

*Our basic technology in all fridge-freezers.

Thanks to two completely separate cooling circuits, the food does not dry out and odours are not transferred.

Keep food fresh for longer

Preserve nutrients and vitamins at their best

Reduce food waste the enjoyable way

You can find more information as well as details of our extensive product portfolio at home.liebherr.com/freshness.

EasyFresh: Ideal for fruit and vegetables

Regardless of whether it's fruit or vegetables, packaged or not, it's all stored perfectly here. The stored food increases the humidity in the safe thanks to the hermetic seal. This keeps the food fresh for a long time.

DuoCooling

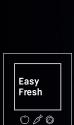

* Given days compared to a standard fridge compartment, verified by food preservation experts at UAS Münster. You can find information about other foods on the back.

BioFresh: Our all-rounder

With perfect humidity and a temperature of just above 0 °C, fruit and vegetables stay fresh much longer in the Fruit & Vegetable safe. Meat, fish and dairy products benefit from ideal conditions in the Meat & Dairy safe.

DuoCooling

+19 days*

* Given days compared to a standard fridge compartment, verified by food preservatio experts at UAS Münster. You can find information about other foods on the back.

BioFresh Professional: An extra boost

The perfection of freshness technologies with a special wow effect is provided by BioFresh Professional: The cold HydroBreeze freshness mist envelops the stored fruit and vegetables like a balm and keeps them as crisp as they were the day they were put in. Meanwhile, the Fish & Seafood safe keeps its contents as fresh as when they were caught.

DuoCooling

* Given days compared to a standard fridge compartment, verified by food preservation experts at UAS Münster. You can find information about other foods on the back.
