Electric Toolbox

EN

LIEBHERR

Modularly Compiled

Ergonomic and Efficient

The modularly compiled Electric Toolbox from Liebherr offers a mobile, robust and orderly product solution for your daily service routine.

All-round Solution for Job Site Attendances

The Liebherr Electric Toolbox provides a wide variety of selected tools and components required to professionally repair electrical plugs.

The Liebherr L-Boxx houses a modularly compiled electric toolbox, which ensures high flexibility and mobility, as well as simplicity in your daily service routine.

Suitable van racking systems and transportation solutions from Sortimo are optionally available.

Your benefits:

- Pre-selected plug and repair kits reduce not only downtimes, but also simplify the order and delivery processes.
- Systematic and well-structured storage of tools and small parts simplifies service work and repair processes.
- All modules can be individually ordered depending on requirements and can be built upon as necessary.
- The proven click system means several boxes can be quickly connected or disconnected, and effortlessly transported all at once.

Single Source

The suitable tools for all work processes and the corresponding components are integrated in the Liebherr L-Boxx. This ensures necessary equipment is always at the ready.

Optimally Equipped

All modules are sufficiently equipped and sorted according to component - from plug housing to wiring pins. Common plugs are already pre-sorted in sets.

Straightforward – Step by Step

All components and usual working processes are clearly described in the accompanying documentation. The comprehensive handbook combines working steps and the corresponding tools and components. This significantly simplifies the use on site.

The Liebherr Group of Companies

Wide Product Range

The Liebherr Group is one of the largest construction equipment manufacturers in the world. Liebherr's high-value products and services enjoy a high reputation in many other fields. The wide range includes domestic appliances, aerospace and transportation systems, machine tools and maritime cranes.

Exceptional Customer Benefit

Every product line provides a complete range of models in many different versions. With both their technical excellence and acknowledged quality, Liebherr products offer a maximum of customer benefits in practical applications.

State-of-the-art Technology

To provide consistent, top quality products, Liebherr attaches great importance to each product area, its components and core technologies. Important modules and components are developed and manufactured in-house, for instance the entire drive and control technology for construction equipment.

Worldwide and Independent

Hans Liebherr founded the Liebherr family company in 1949. Since then, the family business has steadily grown to a group of more than 130 companies with nearly 44,000 employees located on all continents. The corporate headquarters of the Group is Liebherr-International AG in Bulle, Switzerland. The Liebherr family is the sole owner of the company.
