Rope inspection kit

For a strong and safe performance

This kit provides tools to monitor the condition of your crane's ropes and pulleys, supporting safe and efficient operation. From onshore to offshore, proper inspection is essential for ensuring reliable crane performance.

Your benefits

- Compact solution – all necessary tools within reach
- High-quality tools for a long service life
- Enhanced safety with reduced downtime risk
- L-Boxx system for easy transport and quick click connection
- Compatible with other Liebherr kits
