Tomorrow. &

From 08th to 14th April 2019 Liebherr-MCCtec Rostock GmbH will be presenting one of its devices for the first time at the Bauma in Munich. On display is the new Liebherr Log Handler.

Stand-out features

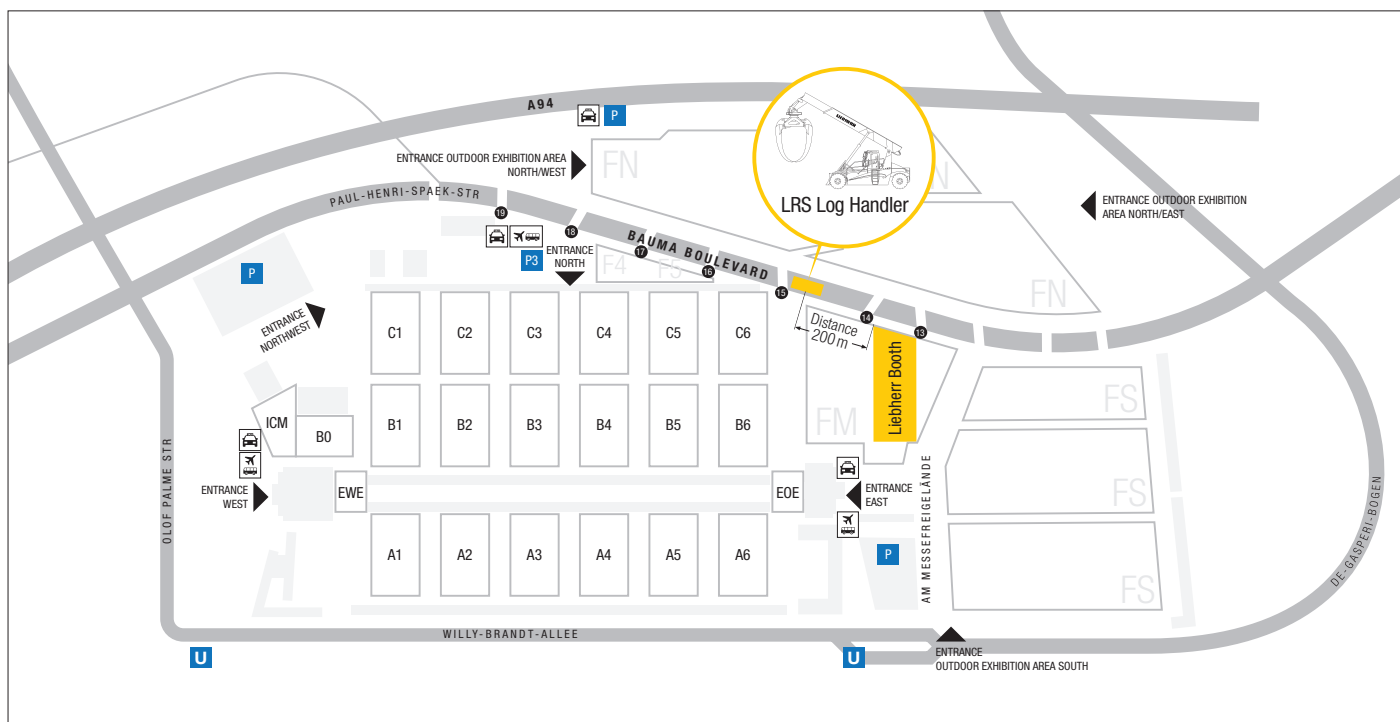

- Powerful capacity of 30 tonnes at an outreach of 3.6 m
- Increased efficiency due to stepless hydrostatic drive
- Proven Liebherr quality & full access to Liebherr global service-network
- Grapple capacity of 8.2 m²
- Telescopic boom of 8.5 m and stacking height of 8.9 m

The lumber handling device of the latest generation combines an innovative concept with extraordinary efficiency and economy.

LIEBHERR

Discover one of more than 60 exhibits from the extensive Liebherr range. The LRS Log Handler is located on BAUMA Boulevard at Gate 15 and thus in the immediate vicinity of the Liebherr stand.

Sophisticated design and proven quality standards make the Liebherr Log Handler a hallmark of reliability.
