

Refurbishment programme

LIEBHERR

Saudi Liebherr Company Ltd.

Extend lifespan. Restore performance. Maximise value.

Your truck mixer works in some of the toughest environments. Day after day, job after job. Over time, wear and tear is inevitable. But replacing an entire unit isn't always the most cost-effective solution. Our comprehensive truck mixer refurbishment programme gives your equipment a second life, improving reliability, performance, and appearance while helping you reduce costs significantly.

Truck mixer refurbishment

Refurbishing, not replacing

Extend your truck mixer's life and cut carbon emissions, saving resources and the planet.

Cost-effective

A smart alternative to buying new equipment that reduces upfront costs and optimises your budget.

Increased productivity & efficiency

A refurbished mixer operates smoother, mixes more consistently, and reduces downtime.

Extended lifetime

Protect your investment and add years of dependable service to your fleet.

Genuine parts

Use authentic components that protect your investment and extend the lifespan of your truck mixer.

Enhanced safety compliance

Our process ensures that key components meet today's safety standards.

Improved appearance for brand image

A freshly refurbished unit strengthens your company's professional presence on job sites.
